accuses us of "narrow mindedness" and di- labor to become cheaper.

headlines on the front page:

ers—Council Appoints Committee.'

The first paragraph lets the cat out of the bag for it says: "Judge Biggs acting as chairman (we imagine the Judge was chair."

WHY NOT STANFIEL man, but the Enterprise says he just acted as such,) held the discussion chiefly to various proposals for improving the present

Would it make our contemporary angry if we ask at this point, why it is that the lunchers discussed means of improvement for the water system if "it is the best in Southeastern Oregon?"

But more from the record of e e, in the same story appears the following enlightening paragraph:

"At an adjourned meeting of the city council Wednesday night a citizen's committee was appointed to investigate the intake, the supply and the pipe line of the present system and make a complete report on the same. C. W. Nelson was appointed to work with the committee as a representative of the council and to lend any assist

That seems a strange procedure with "the best system in Southeastern Oregon,"

posed—Vale Wants Best System."

posed plans and comment of the editor on it takes the tangle out of railroad traffic. the present system among which appears

Of course one naturally wonders what route. the Enterprise has up its sleeve in suggesting such a program to a city that he says has the best system in Southeastern Oregon.

Ontario to get busy.

But we evidently were mistaken. There was nothing and there is nothing wrong at Vale, oh no. The Enterprise merely wants see what he can send them. to make a job for some contractor, or is suffering from the heat and does not know government of one hundred million people would suggest that when Mr. Editor Currey writes an editorial that he consult Mr. Reporter Currey as to what he is going to say on the front page about the water, and try to make the comment gibe with the purported facts in the news columns, and not blame others for taking the news stories as facts—as they are supposed to be—but evidently are not-in the Enterprise.

The facts of the matter are, the Enterprise is kidding itself and trying to kid its be done, but is afraid to come out with the truth and face the situation and is trying to throw dust and pose as the grand and glorious champion of righteousness. Its pose is familiar and its kidding no one but the editor of the Enterprise who takes himself so

PRICES WILL NOT FALL

There is no disputing the fact that the Published Thursdays at Ontario, Oregon, general trend of wages for labor has been steadily toward a higher level. This has been true especially during the past 20 years. Seldom indeed has there been any SUBSCRIPTIONS......One Year \$1.50 marked fall in wages, and then for a short period only.

Since this is true, and it is also a fact, Our county seat contemporary with the that the cost of construction of homes and three-ply name takes exception to the Argus buildings is largely governed by the price citing the condition of Vale's water supply of labor, people who are delaying the build as a reason for action on the part of On'ario ing of a home on account of high priced to protect its own health giving stream and labor are hugging a false hope, if they expect

As a matter of economic justice labor The petulant editor declares himself, in ought not be cheaper when compared with his issue of July 26, as proud of the Vale the supply of capital in the world today water system, and heads his screed: "Vale's Here in America the circulating medium has Water System Best in Southeastern Oregon." May be it is, but from the files of his paper of recent dates these are a few of his Federal Reserve Notes and other paper own comments on the Vale water situation: money has resulted in an inflation that can On July 26, the same issue as that which not be absorbed readily except with high described the water system as the best in prices. An attempt to bear the labor mar-Southeastern Oregon, appears the following ket now would result in a panic. The solu tion of our problems now is predicated ou "Will Investigate Water Situation; the continued manifestation of faith in the City System Discussed by Tuesday Lunch-future by everyone. If you are planning on building go ahead, and be assured that you

WHY NOT STANFIELD?

Governor Olcott must soon appoint a new Highway Commissioner to succeed W. L. Thompson who will officially reside in Portland after January 1. Among the most prominent men mentioned for the place is R. N. Stanfield of Stanfield, Pendleton and Ontario, or from all Eastern Oregon.

There is no man in the state whose interests spread over a greater territory or who is better acquainted personally with conditions over a wider area. This would indeed be of great assistance to the commission, and would insure a fair deal for all sections of the state, not that this has not been true before, for it has-but would insure the continuance of the present policy.

Then Bob Stanfield is approachable.

He travels a great deal and it would not be necessary to send delegates to Portland to see the commission, for there is hardly a month in the year that Bob does not spend a day or two in nearly every Eastern Oregon county.

now doesn't it?

Just the week before last, in the issue of July 19th, the county seat paper spread sounds good for fine spun arguments, but is across three columns of its front page this apparently having hard sledding to make head line: "Correct Solution of City Water the grade on account of the empty car haul Problem is Important—Several Plans Pro- that would be necessary if all the tonnage went to Portland instead of a part going to Then following a long account of pro- the Sound. It will help some, however, if

While Eastern Oregon admires Portthe Enterprise conception of a perfect system, and suggests various means by which Oregon and Washington, oh how we would Vale could secure that. All this after tell-appreciate more of Portland's assistance in ing of the reduced supply at present fur-nished thru leaking pipe lines, etc. building up Eastern Oregon. We know Portland could do it if it would put the In this discussion the Enterprise man same energy into the fight that it expends glibly talks about having to spend anywhere in battling Seattle and Astoria. Maybe from \$10,000 to \$50,000 or more to secure Portland will give us that help once she setthe perfect system he outlined previously. the her difficulty by the equated mileage

Senatorial leaders declare columns, the previous comments of this that they will not report the treaty until paper were made, and used as a warning to President Wilson acceeds to their request for information concerning several knotty points-and word comes from the White House that he is looking over his papers to

That is a pretty pass, indeed, for the what it wants. At least its editorial com- to occupy. You can blame who you will, ments and its news stories fail to agree. We the President or the Senatorial leaders-but it must be admitted that they are both stubborn.

WHAT ABOUT THE NEWLY WEDS?

During the past year there has been unusually activity at Hymen's altar. Dan Cupid has harvested a big crop during the past few months in Ontario, as well as in other cities and towns. Weddings defered on account of the war have taken place by the scores. Yet where are these brides and readers, too. It knows that something must built here in Ontario for more than a year, grooms to live! No new houses have been and house room is at a premium now.

Unless Ontario wakes up to the situation it will not be able to care for its own young married couples and they will have to go elsewhere to live. Ontario can not seriously. Given time, however, and he'll afford to lose these young people. Therefore we must have more homes in Ontario.

Dainty New Blouses

Georgettes---plain and printed; Crepe de Chine; Pongee

Distinctive styles-some with the new short sleeves-moderately priced:

\$5.50 to \$9.50

A new shipment of the popular Welworth and Worthmore Blouses,

'rgandie - Voile - Swiss Prettier models than we have shown before

at \$1 50---\$2.50
